

# Asia-Pacific Partnership on Clean Development and Climate

**Australia**

**China**

**India**

**Japan**

**Republic of Korea**

**United States**

# President's Statement: July 27, 2005

- *The United States has joined with Australia, China, India, Japan, and South Korea to create a new Asia-Pacific partnership on clean development, energy security, and climate change.*
- *This new results-oriented partnership will allow our nations to develop and accelerate deployment of cleaner, more efficient energy technologies to meet national pollution reduction, energy security, and climate change concerns in ways that reduce poverty and promote economic development.*
- *The six Asia-Pacific partners will build on our strong history of common approaches and demonstrated cooperation on clean energy technologies.*
- *I have directed Secretary of State Condoleezza Rice and Secretary of Energy Sam Bodman to meet with their counterparts this fall to carry forward our new partnership and provide direction for our joint work.*

# Focus: Vision Statement

- Undertake voluntary practical measures to create new investment opportunities, build local capacity, and remove barriers to the introduction of clean, more efficient technologies.
- Help each country meet nationally designed strategies for improving energy security, reducing pollution, and addressing the long-term challenge of climate change.
- Promote the development and deployment of existing and emerging cleaner, more efficient technologies and practices that will achieve practical results in areas such as:

- |                     |                          |                                |
|---------------------|--------------------------|--------------------------------|
| • Energy Efficiency | • Methane Capture/Use    | • Rural/Village Energy Systems |
| • Clean Coal        | • Civilian Nuclear Power | • Advanced Transportation      |
| • Natural Gas       | • Geothermal             | • Hydro/Wind/Solar Power       |
| • Bioenergy         | • Agriculture/Forestry   | • Building & Home Construction |
